

Global Methane Initiative Workshop

“Landfill Gas Collection and Utilization at Ukrainian MSW Landfills: First Results, Problems, and Prospects”

Kiev, Ukraine, September 21, 2011

Sponsored by Global Methane Initiative and the U.S. Environmental Protection Agency

Organized By:

U.S. Environmental Protection Agency

Scientific Engineering Centre “BIOMASS”/Renewable Energy Agency

Working Languages of the Workshop

Ukrainian, Russian, English. Simultaneous Translation of Presentations will be Provided.

Conference Venue

Workshop will be held at the Presidium of the National Academy of Sciences of Ukraine (55, Vladimirskaya str.).

The room has 40 seats at the round table and up to 60 seats near the walls and equipped with a "round table" microphone system and equipment for simultaneous translation.

Workshop Agenda

Time	Presenter	Title
13:00-14:00	Registration	
14:00-14:15	Yuri Matveev REA/SEC Biomass	Welcome, Introduction, and Global Methane Initiative General Overview
14:15-14:35	Chad Leatherwood, SCS Engineers	Considerations for Municipalities Before Issuing Tenders for Landfill Biogas Projects.
14:35-14:55	Yuri Matveev, REA/SEC Biomass	LFG Country Profile of Ukraine – Landfill Database, Economics, and Financing in Ukrainian Conditions (Kyoto protocol, green tariffs, etc.)
14:55-15:10	UNDP, Alexander Severin	Landfill Gas Project Financing Based on Lugansk Case, Prospects for Replication
15:10-15:25	Environmental Fund, Marina Bereznitska	The Possibility of Usage of Ukraine Landfill Gas Model for National Reporting
15:25-15:45	Chad Leatherwood, SCS Engineers	Landfill Gas Collection System Design and Operational Considerations
15:45-16:00	Denis Kutsyi, REA/SEC Biomass	Fields Test Experience at Ukrainian Landfills (Chernivtsy, Mariupol, Rivne etc.)
16:00-16:20	Coffee break	
Ukrainian companies presentations and discussion		
16:20-16:35	TisEco, SEC Biomass	Mariupol Landfill Project
16:35–16:50	Nedra Luganshiny	Lugansk Landfill Project
16:50-17:05	LNK, Vladimir Bannov	Kiev Landfill #5 Project
17:05-17:20	HAASE (to be defined)	Kremenchuk Landfill Project
17:20-17:35	CCM, GAFSA (to be defined)	Lviv, Yalta, and Alushta Landfill Projects
17:35-17:50		Reserved
17:50-18:00		Discussion and Closing

Optional Training Courses for Ukrainian Landfill Gas System Operators From 9:00 - 12:00
