

Municipal Solid Waste Update

FINLAND

Jukka Salmela
GMI Municipal Solid Waste Subcommittee Meeting
Vancouver, Canada, 13 March 2013

Partner Country Update

- Implementation of new Waste Law, complying Waste Directive (1.5.2012)
 - PPP's in treatment; public sector responsible for household waste, private sector for commercial waste
- National target of 50 % recycling rate for MSW by 2016
- New Landfill Act to be enforced by 2013
 - Expecting Landfill ban for biodegradable waste with TOC > 10 %

Partner Country Update

- Continued support from the state for renewable energy, emphasis on CHP and vehicle fuel production.
 - Feed-in Tariff for power production with heat premium if CHP-efficiency > 75 %
 - Investment (Energy) support for vehicle fuel production up to 40 %
- New AD plants invested by municipalities for source separated kitchen and green waste, private plants for sludge's and industrial biowaste

Partner Country Update

- Capacity and number of WtE installations are increasing (in 2012 > 600 000t)
- About 50 % of the required capacity now installed
- 2011 1,1 Mt landfilled, 206 kg/person
