

# Methane to Markets Partnership Expo

BEIJING, CHINA

30 OCTOBER – 1 NOVEMBER 2007

## **A Forum for Projects, Technology, Financing and Policy**

The Methane to Markets Partnership Expo is the premier international forum for promoting methane recovery and use project opportunities and technologies.

## **Join the International Methane Community**

- Showcase project opportunities and technologies
- Meet with potential project partners and financiers
- Learn about the latest technologies and services
- Explore key technical, policy, and financial issues
- Interact with high-level government agencies from 20 countries

[www.methanetomarkets.org/expo](http://www.methanetomarkets.org/expo)

## Why Attend?

### **Project Developers and Financiers:**

Identify and explore project opportunities with industry partners. The Expo will showcase international financing and projects seeking development partners.

**Policymakers, Project Developers, and Government Representatives:** Join high-level national delegations and participate in policy discussions. Help develop next steps for the Partnership and guide advancement of country-based policies and projects.

**Manufacturers and Vendors:** Participate in an international marketplace with a methane focus. Demonstrate and market the latest methane recovery and use technologies and services in large exhibit halls.

**Industry Representatives:** Interact and discuss projects with technology vendors and developers. Learn about your options for implementing methane capture and use projects.

## The Expo's comprehensive program will feature:

**Four sector-specific tracks** on key methane capture and use technologies and policy issues as well as key barriers to project development and how to overcome them.

**Additional panels and presentations** highlighting methane recovery and use projects ripe for immediate financing or implementation.

**Policy forums** geared to high-level decisionmakers.

# Methane to Markets

March 2007

The Methane to Markets Partnership is an international initiative that advances cost-effective, near-term methane recovery and use as a clean energy source in four industrial sectors: agriculture (animal waste management), coal mines, landfills, and oil and gas systems.

Join a growing community of 20 countries and more than 500 professionals and organizations engaged in methane recovery and use projects by becoming a Methane to Markets Project Network member. **For more information, visit [www.methanetomarkets.org/partners/network/](http://www.methanetomarkets.org/partners/network/)**

## The Expo Venue

The Expo will be held at the China World Hotel and Trade Center, a world-class facility in the heart of Beijing.
