

# Steering Committee Goals

---

- Discuss GMI Methane Action Plans and encourage completion.
- Discuss GMI's relationship with the Climate and Clean Air Coalition and seek opportunities to mutually support goals of methane reductions and increase communication.
- Discuss financing issues related to methane project development and opportunities to leverage funding for methane-reducing activities
- Discuss future meetings of Subcommittees and Steering Committee and how best to encourage participation.
- Hear report outs from Subcommittees and encourage continued communications, reporting and tracking of success.
- Develop charges to the ASG, Partners and / Subcommittees over the next year.
