# ENHANCING AUSTRALIA'S ECONOMIC PROSPERITY

Australian Government – Department of  
Resources, Energy and Tourism

# Global Methane Initiative (GMI) meeting and International Coal Industry event

## Rationale

- connect the Australian Coal Industry with domestic and international technology providers and experts in coal mine methane abatement
- provide greater information for Australian industry on future international investment opportunities to offset their carbon liability when the flexible market mechanism is introduced
- promote Australia's expertise and technologies relevant to coal mine methane recovery and use.

# Global Methane Initiative (GMI) meeting and International Coal Industry event

## Logistics

- Venue
  - InterContinental Sydney Australia
- Date
  - 4 – 6 September 2012
