- Discussion of topics to include in technical and policy sessions (see attachment)
- 17:30 – 17:45 **Summary and Review of Action Items**

Attachment to the Agriculture Subcommittee Agenda

Previously Suggested Topics of Interest for the Agriculture Subcommittee

- Calculators/tools to estimate potential methane emissions and/or reductions
- Case studies of successful projects
- Methods to get more projects developed
- How to develop a Program of Activities (PoA)
- Discussion of which countries are collaborating on projects (and how)
- Guide to regional, national, and international grant or funding sources
- Guide to policies/incentives related to agricultural methane emissions reductions by country
- Information on Nationally Appropriate Mitigation Actions (NAMAs)
- Lessons learned from other countries
- How to encourage investment in biogas projects
- Follow up on use of *International Guidance on Quantifying and Reporting the Performance of Anaerobic Digestion Systems for Livestock Manures*
- Quantifying flare efficiency
- Additional resource assessments
- Interactive discussion on potential solutions to barriers encountered by various countries
- Emphasis on needs identified in country sector action plans
- Development of pilot projects specified in sector action plans
- Systematic way to link strong demonstration/pilot projects with funding sources
