

Methane to Markets

LANDFILL GAS ENERGY WORKSHOP ARMENIA, COLOMBIA

Methane to Markets has completed another successful Landfill Gas Workshop in Armenia, Colombia. The Workshop was held August 13, 2009 at the 9th International Congress on Solid Waste Disposal and Environmental Perspectives.

Approximately 80 professionals attended the workshop. Among the participants were federal, state and local officials, public services companies, and project developers. The main focus of the workshop was to strengthen knowledge on LFG utilization. The agenda of the event included the following:

1. Welcome, Victoria Ludwig, Program Manager, US EPA, and Sandra Lopez, Ministerio del Ambiente, Vivienda y Desarrollo Territorial
2. Landfill Gas 101, Ricardo Lopez Dulcey, General Manager, Ambiental Biotech
3. Landfill Gas Utilization Technologies, Chad Leatherwood, Project Manager, SCS Engineers
4. Coffee Break
5. Applicable Regulations for LFG Collection and Control Projects, Jorge Emilio Angel, Environmental Quality Sub Director, CORANTIOQUIA
6. La Pradera Landfill Gas Project, Erika Mazo, Antioquia University
7. Workshop Closing

Methane to Markets thanks Enlaces Asociados, the Ministry of Environment, the Superintendencia de Servicios Publicos, CORANTIOQUIA, and Antioquia University for their support in the development of this workshop.

Jorge Emilio Angel, CORANTIOQUIA
